“(Contigo) offer a way for us to remain a cutting edge and flexible arm of a leading energy supplier.”

Ben Gatley,
Head of Trading
Ecotricity

Our Cloud customers benefit from;

- 01** Robust system reliability
- 02** Fast, efficient turn around times for fixes and upgrades
- 03** Advanced security

Strengthen your system security

Our cloud service is delivered on a highly trusted, well-certified platform.

Our cloud service simplifies the application of latest security patches.

Our SaaS environment supports;

-  Bespoke customisation of enTrader
-  Flexible upgrade schedules

You can develop your own ETRM software enhancements and reporting.

enTrader’s open API allows you to build interfaces to critical business systems which can be supported in the cloud.
